

# Hygienic Rake

Series 5691

## Hygienic Euro Thread

Hygienically designed Euro thread prevents walk-off and is easy to clean

## Wide Rake Blade

The rake is wide-set to move more produce more efficiently without damaging delicate products

The Hygienic Rake is mostly used for emptying out fresh produce from large containers. It requires a European-thread handle, which is hygienically designed with shallow, easy-to-clean grooves. Any of our Vikan handles will attach to the Hygienic Rake.

## Hygienic Rake

5691

□  
5

The Hygienic Rake is an ideal solution for gently moving produce from tubs to processing areas. The fork can be used gently to avoid smashing delicate products such as grapes or peaches.

### Specifications:

Length: 7.9"

Width: 8"

Height: 8.9"

FDA-Compliant Raw Material: Yes

Material: Polypropylene

Unit Weight: 0.91 lbs.

### Colors

When ordering, add the color digit to the base part number to denote color.

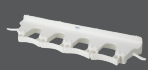

Fully updated product specifications are available at [Vikan.com](http://Vikan.com).

## The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
