| Parameter                                   | u.m.      | Range                                      |
|---|-----------|--|
| Physical appearance                         | sensory   | Brownish red powder                        |
| Sensory profile                             | sensory   | Slightly astringent, bitter                |
| Moisture                                    | %         | < 10                                       |
| Bulk density                                | g/ml      | 0,4 - 0,5                                  |
| pH in a solution at 5%                      | Colog H+  | 2,5 - 3,5                                  |
| Heavy Metals (as lead)                      | mg/kg     | < 10                                       |
| Pathogens (as salmonella spp)               | cfu/25 g  | Absence of growth                          |
| Puriry of raw materials (Codex Oenologique) | Statement | conform with current regulation            |
| Allergens*                                  | Statement | Allergen free                              |
| GMO and labelling                           | Statement | GMO free - conform with current regulation |
| Packaging (Reg.CE 1935/04 e subsequent)     | Statement | conform with current regulation            |
| lonizing radiations                         | Statement | Product not subject to ionizing radiations |
| Kosher, Halal, Organic                      | Statement | Not available                              |

The specification parameters are stated per lot or sample, considering the analytical data and the literature of the materials used, as part of the control system in place to maintain compliance with defined intervals.

The above data represent the result of our quality assessment. All values come up to the average of every lot. They do not free the purchaser from his own quality check nor do they confirm that the product has certain properties or is suitable for a specific application.
